MEMORANDUM FOR: Chief, Safety Division, OMS

FROM: 

Chief, Facilities Management Group, OL

SUBJECT: EPA Registration

REFERENCE: Memo for C/FMD/OL fm C/SD/OMS dtd 4 Oct 88;
Subject: Hazardous Waste - Hqs. Compound

1. In response to your inquiry, we have found that EPA Identification Number VA3110312458 was issued to this office in late 1986. This number was obtained to allow electrical transformers located in the Original Headquarters Building to be shipped to an approved disposal site. More recently, this number has been cited on the manifests for PCB contaminated soil (taken from near the Hammermill) which was shipped to an approved disposal site.

2. To our knowledge, we have not initiated any action regarding shipment of hazardous waste without first coordinating with your office. Should you feel that the Agency should operate under only one registration number, I would like some assurance that we would not hold up activities looking for an authorized person to sign shipping manifests or other documents.
